

flexiscale & ratemail

YOUR MAIL IS OUR BUSINESS

Postal scales

Flexible and accurate

Today's state of the art FP franking machines are available with fully integrated scales but to add total flexibility to the range, when perhaps you need a scale in a separate location or to handle heavier items, FP have available two other options, the **flexiscale** and **ratemail** which both fully interface with the postage meters on all the machines to give you control and error free accuracy.

flexiscale

Highly functional

flexiscale 5kg

'the perfect addition to your post room'

flexiscale is a highly functional postal scale with the latest electronic technology. The postage scale is extremely accurate for both letters and small packets.

- ☑ flexiscale has a "Shop Around" facility enabling you to compare costs from different carriers.
- ☑ flexiscale capacity 5kg
- ☑ Easy-to-use rate menus
- ☑ Franking machine interface
- ☑ DocEx option
- ☑ "Shop Around" facility

Technical details are subject to change without notice.

ratemail

The perfect tool
for weighing and
sizing your
post

ratemail 10kg and 30kg

'size and weigh your mail with ease and accuracy'

Capable of being interfaced to FP franking machines or postage meters, these robust postal scales are an indispensable addition to your franking system.

ratemail can include all the worldwide rates for sending parcels and packets the cheapest and most effective way possible. They are neatly designed to enable convenient location of the platform for weighing large parcels with the controls next to your franking machine.

- ☑ ratemail 10kg and 30kg
- ☑ Postal scale interface
- ☑ International Mail
- ☑ Recorded Delivery
- ☑ DocEx option
