## “At a glance” now means what it says! With the display screen of the new **ultimail!**

Your window to an entirely new world of mail franking ...

with the extra-large display screen of the all-new **ultimail**.

Discover the pioneering Francotyp-Postalia concept for franking your mail, with the superior ease of operation and outstanding flexibility offered by the brand-new **ultimail**.

**ultimail** delivers all the advantages of an electronic franking system in a compact and practical package. The uniquely simple program enables you to easily navigate the various options and registers. A back-lit screen displays complete information about every franking operation – at the touch of a button.

From the calculated postage amount, to an accurate image of the selected advertising slogan, to the status of currently available postage: all information is clearly presented and easy to interpret. Leaving nothing to guesswork.

The integrated modem enables you to load new postage at any time, day or night. Never again join the post office queue to load new postage.

Welcome to a new world of franking from FP.

Put your message on  
your envelope.

Use your outgoing mail to advertise  
for you. The **ultimail** can store up to  
nine advertising images or messages  
that you design – and select as  
needed.

But there's even more:  
Edit and add a text message at any  
time. Compose your message on the  
keyboard to give your customers and  
clients up-to-date information about  
holidays, trade fairs or special offers.

**An easy, no-cost method of spreading  
the word.**

A card system, that meets  
every need.

**ultimail** offers superior security and  
the flexibility you need.

The master-card can be used to  
activate all **ultimail** functions.  
Optional user-cards authorize the  
holder to frank only from  
pre-determined departmental  
accounts. New advertising images or  
postage rate tables can be loaded with  
special chip-cards.

# ultimail - anything is possible.

ultimail - uncompromising performance,  
from the beginning.

A modular design enables you to configure your ultimail according to your individual needs. Choose from two basic models - ultimail **65** (up to 3900 letters/hour) or ultimail **95** (up to 7200 letters/hour), then select from a variety of options to build the system you need. Anything is possible, if you are looking for uncompromising efficiency and ease of operation.

ultimail - a world of options.

Outstanding design in a compact package. The result: Innovative franking technology in a space-saving format. Modular components ensure your ultimail will meet your needs today and tomorrow. Efficiently manage your postage costs with the integrated departmental account feature. Share the ultimail with office partners or manage your postage costs by department.

Flexibility and variety:  
**up to 25 conceivable configurations**

**ultimail 65**  
with label dispenser

**ultimail 65** or **ultimail 95**  
with label dispenser and scale

Expanded **ultimail 65**  
with label dispenser, scale  
and semi-automatic sealer

Expanded **ultimail 95** with label  
dispenser, scale plus  
automatic feeder and sealer

What makes **ultimail** a star:  
Features for flexibility and efficiency.

**Scale** - A space-saving integrated 5-kilogram scale precisely weighs every letter, automatically calculates the correct postage and sets the franking machine accordingly using standard or differential weighing.

**Label dispenser** - Both for thick letters and small packages. Enter the number of labels needed, and let **ultimail** print and eject adhesive labels with postage.

**Sealer** - A semi-automatic sealer helps load envelopes, and spares you from moistening and closing the letter flaps.

**Feeder** - A fully automatic feeder separates and seals same-sized envelopes from a stack.

**Optional interface** - A second, supplementary interface enables you to connect the **ultimail** to a separate electronic letter scale.

**Infoprint** - A unique way of capturing accounting data and displaying it on your PC. **Infoprint** also allows you to export your accounting data into Microsoft Excel for further manipulation.

Perfect  
service

**First aid: First class.**

An integrated software-based "Help" function offers easy-to-understand instruction in the display at the press of a button. The modem can be used to instantaneously diagnose errors and faults remotely, and our FP service number is available to meet any other needs.
